FIND THE RIGHT SIZE

1. Print out this sheet to help you measure.
   **PC TIP:** Do not ‘fit to page’ and be sure page scaling is set to ‘none’.
   **MAC TIP:** Select ‘actual size’.

2. Fold along the dotted line.

3. Put the chart on the floor with the fold against a wall.

4. Place your child’s heel against the fold.

5. Make sure he/she is standing up straight and distributing weight equally on both feet.

6. Measure each foot to the longest toe and buy the size that fits the largest foot best!

Use a ruler to make sure the chart printed accurately!
